

## Speaker Profile

**Rob Douglas**  
**CEO**  
**ResMed Ltd**

Robert Douglas is Chief Operating Officer, for ResMed - a global leader in the manufacturing of medical devices for the sleep-disordered breathing market. Prior to his appointment as COO, Rob honed his extensive expertise across the ResMed organisation initially as VP Corporate Marketing; this was followed by his appointment as VP Operations - responsible for ResMed's manufacturing division.

ResMed's Sydney operations employ some 1,100 employees responsible for the design, manufacturing and export of innovative medical devices to the USA, Europe and Asia-Pacific. During Rob's time as COO ResMed has been recognized with numerous awards including an *Australian Export Award* in 2006.

Prior to joining ResMed, Rob served as GM, Strategy and New Business for Keycorp Ltd, an Australian electronic commerce company providing services to major banks and telecommunications companies around the world. He has also held senior R&D and operational roles in Telectronics Pty Ltd, in the development of the implantable defibrillator. Rob has an MBA from Macquarie University and a Bachelor of Electrical Engineering (Hons 1) and B.Sc. in Computer Sciences from New South Wales University, Sydney.
